

# FREE ALL®

– The Rust Eater –  
DEEP PENETRATING OIL

# Eats Rust. Spits Bolts.

Free All spreads deep into rusted and frozen parts, freeing them faster and easier than any other penetrating oil around.

Other brands are made up mostly of solvent, because it's a cheap way to deliver the penetrating agent to rusted bolts. And, because solvents evaporate so quickly, the part of the lubricant undelivered to the bolt is rendered useless.

## Use less effort

Independent tests confirmed that, with Free All, rusty bolts required an average of **30% less torque** to break free than with the next best penetrating oil.

**Three active components get the job done!**

**Free All® vs. the competition**

Free All works faster and better than any other penetrating oils

## SEEKING AGENT

delivers the lubricant faster and farther

### The Rust Runner

This highly mobile, ultra-low viscosity, slow-evaporating “seeking agent” delivers the lubricant faster and farther than typical solvents. This means more lubricant arrives at the scene before the solvent evaporates.

35%

Delivers **3X** more lubricant

### The Lubricant

Free All contains significantly more lubricant by volume than the competition, so there’s more loosening agent attacking those rusty bolts.

35%

Ingredient literally **EATS RUST**

### The Rust Eater

This highly refined, naturally occurring ingredient literally eats rust. The Rust Eater also provides its own lubricating film, so it acts as its own delivery agent – and it doesn’t evaporate, so it keeps going till the job is done.

30%

## Safer to use

Harsh solvents found in other penetrating oils can destroy various plastics, so you have to be extra careful when using their products. Free All uses far less solvent – and a less caustic solvent – making it safer to use.

- SAFE ON PAINT
- BODY SHOP SAFE
- SILICONE-FREE
- SAFE FOR PLASTIC PARTS
- LESS ODOR

## Guaranteed to outperform

Free All comes with the amazing **Free-For-All Performance Guarantee**. If you’re not satisfied with Free All, we’ll buy it back, no questions asked. That’s how confident we are in how Free All performs.

Part #	Description
RE01	Free All 1.5 oz Aerosol Spray
RE06	Free All 6 oz Aerosol Spray
RE12	Free All 11 oz Aerosol Spray
FS16	Free All 14 oz Trigger Spray
FA55	Free All 55 Gallon Drum
