Territory: IA (I35 and east)

Snap-Tite Hose is the premier, domestic, made to last hose company. Snap-Tite products are designed and engineered with leading-edge technology and hybrid materials. Proudly manufactured, assembled, and proof-tested in the USA to meet NFPA standards, Snap-Tite Hose offers the safest, most reliable **industrial, municipal, and agricultural layflat hoses** available on the market today. www.snaptitehose.com

Territory: IA (I35 and east), IL (Northern Half), WI (Eastern Two-Thirds), UP of Michigan

Specialty Saw specializes in manufacturing **non-ferrous carbide circular saw blades** which run on a wide variety of production saws cutting an extensive list of materials (hot and cold). The blades cut billets, extrusions, castings, plate, rod, bar, pipe and structural members as well as cross sections that have irregular thicknesses. Their body of work covers all grades of aluminum and copper alloy (including brass and bronze). Specialty Saw's line of **Clean-Cuts® Hydraulic Hose Saws and Knives** are used throughout the world for cutting all types of hydraulic, industrial, pneumatic, high pressure and specialty hoses. These products challenge traditional saws as they cut CLEANLY, SAFELY, with minimal smoke and debris in the hose. www.specialtysaw.com

Territory: IA (I35 and east), IL (Northern Half), WI (Eastern Two-Thirds), UP of Michigan
